A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application prior to a final rejection.

Accordingly, this application is not eligible for continued examination under 37 CFR 1.114. However, applicant's submission filed on 10 May 2005 has been entered as a proper response to the last non-final Office action, and an action on the merits follows:

The disclosure is objected to because of the following informalities: Note that reference label "W" appearing in Fig. 4 lacks description in the specification. Note that reference labels "16", appearing in Fig. 7, lacks explicit description relative to the specification description of Fig. 7. Appropriate correction is required.

Claims 27 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 27, note that it is unclear what characterizes the "conductive traces" being "embodied as vias" and whether such a recitation is consistent with the description of the invention. Clarification is needed.

The following claims have been found objectionable for reasons set forth below:

In claim 24, line 6, claim 28, line 7 and claim 31, line 15, note that "formed" should be rewritten as --disposed-- for an appropriate characterization at each occurrence.

In claim 24, line 12, claim 28, line 16 and claim 31, line 21, note that "forms" should be rewritten as --provides-- at each occurrence for an appropriate characterization.

In claims 29, 30, note that "formed" should be rewritten as --provided-- at each occurrence for an appropriate characterization.

In claim 30, line 2, note that "planed" should be correctly written as --plane--.

Claims 24, 26, 27, 28, 29, 30 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wakeling (of record), for reasons of record.

Claim 31 is rejected under 35 U.S.C. 103(a) as being unpatentable over Forbes et al in view of either Kobayashi et al or Wakeling (all of record), for reasons of record.

Claim 25 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kobayashi et al, Hoffman or Wakeling in view of Quan (all of record), for reasons of record.

Applicant's arguments with respect to claims 1-23 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
